CALIFORNIA PROPOSITION 65 DECLARATION

McNaughton & Gunn is compliant with California's Safe Drinking Water & Toxic Enforcement Act of 1986, commonly known as Proposition 65 (Prop 65), which establishes a list of chemicals that the state of California's risk assessment process has determined to present a risk of cancer, birth defects, or other reproductive harm. The Prop 65 chemical list may be found here:

Responsible printing is a core value at McNaughton & Gunn and our commitment to green book printing is a vital part of our culture and everyday practices. We are continuously evaluating our supply chain for conformity to Prop 65. We are confident that our standard offerings are in compliance with Prop 65. Because of the complexities of the regulation, specialty treatments may require additional research. Your sales representative is happy to research specialty items.
